Furthering Local and Regional Activities

Room: 7.00.18

During the Creative Space there will be a meeting for all of us interested in furthering Local and Regional Activities (LARA). This will be a time to hear from those who have run events in the past year, but more particularly to hear of possible plans and innovations for events into the future and what support might be available from the board and the executive. During the meeting we can dream up new possibilities and respond to some of the ideas for regional activities emerging from Members' Day exchanges. Richard Morgan-Jones, Chair of LARA on the board, will chair the meeting.
